Charging Battery

Use the micro USB cable to connect to a mobile phone charger or the USB port of a computer to charge the battery of the CamFi device.

Quick Installation

1. Connect CamFi to your camera

Connect the CamFi device to your camera using the mini USB cable, then turn on the CamFi and your camera.

2. Get the CamFi app

You will need to install the CamFi app on your smartphone or your PC. The CamFi app is available for iPhone®, Android™ and Windows®. For a full list of supported devices, visit:

<http://www.cam-fi.com/download.html>

1. On your smartphone or your computer browser, visit:

<http://www.cam-fi.com/download.html>

2. Follow the instructions to install the CamFi app on your smartphone or your computer.

iOS App

Android App

3. Connect to the Wi-Fi hotspot of the CamFi

After you turn on CamFi and the system status indicator light turns a constant green, you can find and connect to the Wi-Fi hotspot of the CamFi with the name prefixed with “CamFi” on your smart phone or your computer.

4. Start CamFi App

Launch the CamFi app on your smart phone or your computer.

Firmware Upgrade

The CamFi app will automatically check if there is a new version of firmware available for the CamFi. When there is a new version available, the app will start the upgrade wizard to upgrade the firmware of the CamFi. You can follow the instructions provided by the wizard to upgrade the firmware.
